Equipment Horses (EH)

- EH1 French Nap. Limber Horse and Traces, standing, head up
- EH2 French Nap. Limber Horse and Traces, standing, head down
- EH3 French Nap. Limber Horse and Traces, galloping
- EH4A British Nap. Limber Horse, unriden, standing, head normal
- EH4B British Nap. Limber Horse, ridden, standing, head normal
- EH5A British Nap. Limber Horse, unriden, standing, head thrown up
- EH5B British Nap. Limber Horse, ridden, standing, head down
- EH6A American Civil War Limber Horse, standing, unriden, head normal
- EH6B American Civil War Limber Horse, standing, ridden, head normal
- EH7 Heavy Draft Horse, pre Napoleonic period
- EH4C Harness set for British Nap. or ACW horse teams, comprising stirrups, traces, limber attachments and instructions - sufficient for six horses.

In making up British Nap. or ACW horse teams, an 'A' and 'B' Horse is used for each pair of Horses, 'B' to the left when viewed from the rear, 'A' to the right. Horses with heads 'Normal' are packed at random with heads turned left, right or straight to give interesting team variations. Pre-Napoleonic teams should be made up using EH7.

Science Fiction (SF) Based on the Edgar Rice-Borroughs Martian Books

- SF 1 Red Martian Chief 10p
- SF 2 Red Martian Warrior, radium rifle 10p
- SF 3 Red Martian Warrior, sword and dagger 10p
- SF 4 Red Martian Maiden with pistol 10p

- SF11 Red Martian Princess 10p
- SF12 White Ape 20p
- SF13 Plant Man 20p
- SF14 Martian Lion 12.5p
- SF16 Red Martian mounted on Throat 61p
- SF17 Green Martian on large Throat 1.08

25m/m EQUIPMENT RANGE (25)

This range of equipment is specifically designed at an approximate scale of 5m/m = 1ft. to complement the above figure range and to show the figures when set against them to be men of average height of their period, less the height of the figure bases. Like the figures, they represent the highest quality and authenticity available to the wargamer and collector at the present time.

- 25/A French Napoleonic 4PDR gun
- 25/B French Napoleonic 8PDR gun

system 12

**HINCHLIFFE
MODELS LTD**

Although launched into a well established market of small military figure and equipment models, System 12 brings to it a completely new multi-dimensional concept backed by a company name synonymous with top design and quality throughout the world.

As its name implies, System 12 is a system, a complete and all embracing system in which the wargamer, the small figure collector, the diorama builder or those who teach with the aid of models can satisfy all aspects of the subject.

Manufactured from the highest grade tin alloys it is now possible to obtain not only the figures in metal but also all the attendant accessories that one associates with the hobby - all to constant scale - all in System 12. Houses and fences, roads and rivers, foot figures and cavalry, guns and armoured vehicles, bridges and trees, redoubts and pill boxes, movement trays and shell bursts and a host of other features are available now or are planned for your future pleasure. This is System 12 in a scale which can easily be seen and appreciated, stored and transported and enjoyed in a play area of sensible size at prices you can afford. Note the name, ask for it by name and remember that no other manufacturer can offer System 12 to you.

System 12 is based on an approximate scale of 2mm = 1 ft. Very compatible to 'N' gauge and 1/150 scale.

Take a 6 ft man, make him 12mm high and that's System 12.

Figures (ST)

British Napoleonic Infantry

- ST 1 Centre Company Line Infantry, advancing (10) Y
- ST 2 Centre Company Line Infantry, kneeling firing (10) Y
- ST 3 Centre Company Line Infantry, standing (10) Y
- ST 4 Centre Company Line Infantry, receiving kneeling (10) Y
