54mm metal soldier kits
Ancient and Medieval

In this catalogue we show our range of 54mm figures – the size being the approximate height of figures without the heads – depicting in accurate detail the warriors of the past. The great leaders and common soldiers alike, all have been designed after much meticulous research into the uniforms and weapons, and created by some of this country's leading craftsmen.

All the figures shown in this catalogue are made of white metal and are available in kit form. They can also be supplied fully hand-painted to enable you to make an authentic model, exclusive of the military glory and romance of a bygone age.

The kits can be easily assembled with epoxy resin, adhesive after first removing any excess from the casting with a small file or craft knife. Before painting, if necessary, please wash the unpainted kit – a mild dish or oil paint, according to your preference.

Please see the separate price list for the prices and ordering details. Please note that the following two-figure kits – FC5401, FC5402, FC5403, H15733, H15745, A43E, A43FH, H and 754389, 589 – are the price of two full figures. Kits FC4206, A43K and M5409 are the price of mounted figures. FC5405 and FC5406 are the price of a mounted figure plus a full figure.
