HORNET

“Quality never goes out of fashion and that’s just what you get with Hornet. The Despatch Rider (BH14) painted by Raul Garcia Latorre, won Gold in the (Euro)militaire) class for stock kits... It just goes to show what can be done with a stock figure of this quality. Hornet kits in this range are designed to go with 1/35 scale armour kits. Their animation means that they can usually be displayed either singly or in groups. The quality of casting and presentation is flawless... What more can you say about figures that are as perfect as they will ever be?”

EXCLUSIVE PHOTO: ISSUE 005 (WWW.WINDYBOYS.COM)

Sometimes it is very awkward buying Brits and at a certain age, we are expected to give you a hard sell, albeit how wonderful these models are, but some of us have been conditioned from infancy to be self-defating. Packed either what? The time x arrival of the Internal Physical Modellers Society's magazine containing the above review solved the problem.

The much praised Hornet military subjects are all made to 1:35 scale and up, a wide range, unless otherwise stated. Many of these figures have separate arms and heads, and interesting variations can be achieved by the use of Hornet resin sprays and plastic DML (Zagon, Tamiya and the Italian

scassary kits. The War West series of portable figures of James the Horse, Striders and the Tankhouse... 35 scale. Our decaying necessity projects us from ancient modern reviews, but we could, we could.

The Hornet series, War I, comes in the form of resin figures with a few in metal and plastic. Hornet, the series has acquired a reputation for high quality and consistency. Once again, the WWI subjects are made to 1:35 scale but the Napoleons and ACW are to the traditional 1:32 size. Most of a wide range series than I am not and includes a wide range of models as well as

The Windy Boy's Standard

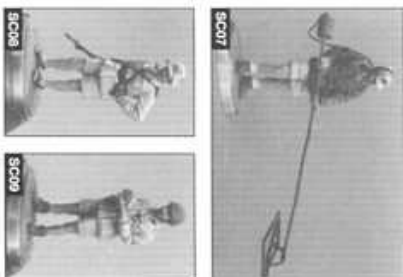

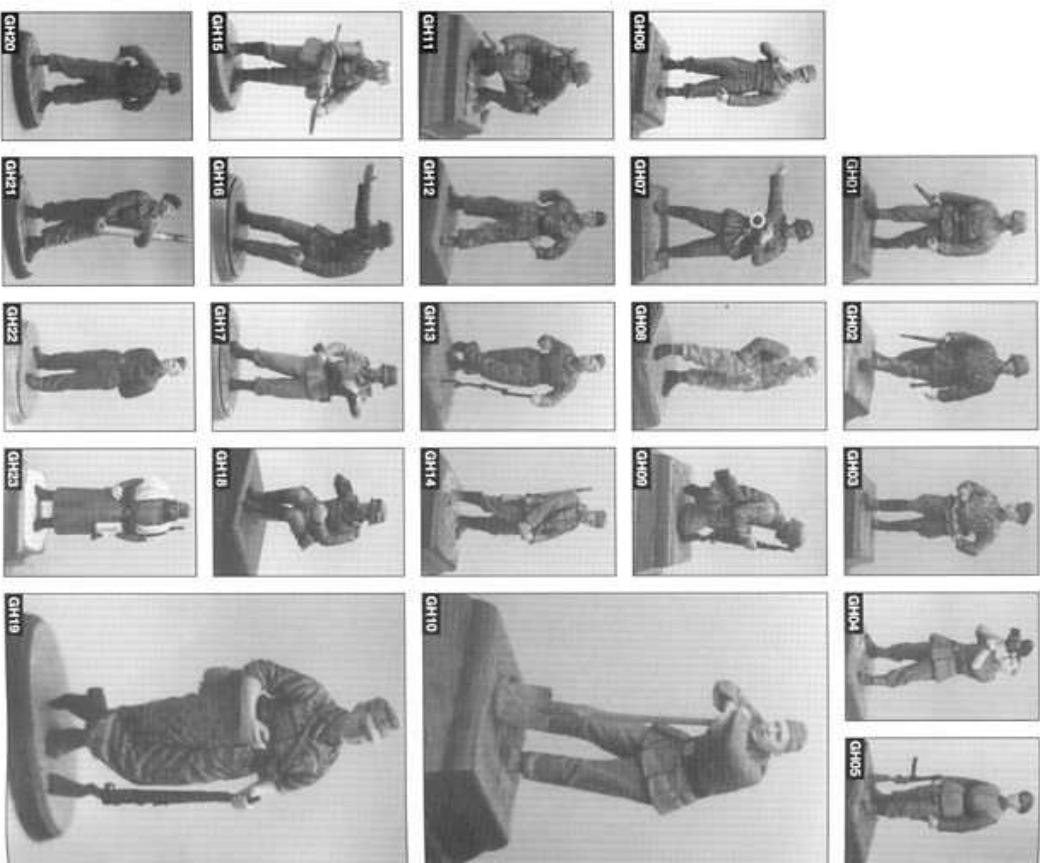

Roger Saunders & Associates

It will be enjoyed by you!

HORNNET

1:35 scale figurines, German & Italian subjects

Hornet figurines: A range of 1:35 scale figurines and accessories for the diorama builder and collector. The items are in white metal unless otherwise stated. Great attention is paid to quality, and the series is consistently painted in the modeling press. Most of the figures have separate arms and heads; many interesting conversions and variations can be made by using Hornet and other manufacturer's accessory sets.

All price band C unless otherwise shown

German figurines

- GH01 Wehring SS infantry, camo smock
- GH02 SS infantry companion to GH1
- GH03 SS officer in smock, walking
- IH02 Italian HIT (Hitler) underriggenable paratrooper
- GH04 PK officer, Russian winter, PPSh gun
- GH05 Soldier in M43 uniform, speaking into a voice carrier (speaking into a microphone)
- GH07 Feldgendarmerie directing traffic
- GH08 Grenadier, paddled stretcher through a trench
- GH09 Soldier kneeling, smock, Kar 98
- GH10 Engineer resting on spade
- GH11 Contract engineer kneeling with GFM
- GH12 Blomberg pilot & special pack
- GH13 APV crewman in one piece overall
- GH14 Companion to GH12, relaxing
- GH15 Soldier passing water
- GH16 Combat engineer clearing spade, specialist, engineer washing and packs
- GH16 Soldier at turn, gesturing, rifle (Good distance/convoy position)
- GH17 Russian in German service, PPSh
- GH18 Soldier in trench, gesturing, rifle
- GH19 Paratrooper, camo overall
- GH20 Companion to GH19, with rifle
- GH21 APV crewman with 88mm shell
- GH22 APV crewman in leather suit
- GH23 Cold soldier in greatcoat, rifle
- GH24 Paratrooper in camouflage smock
- GH25 SS officer, Luft War camo suit
- GH26 Motorradist in long rainproof coat

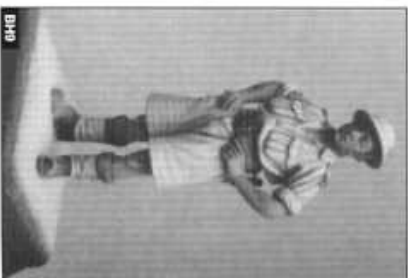

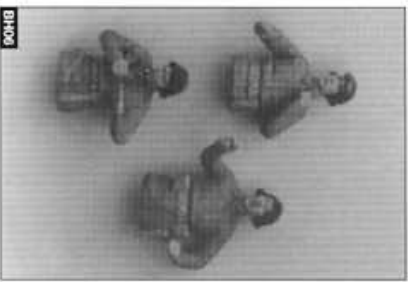

Italian figurines:

- IH01 Alpine mountain trooper WW2
 - IH02 Italian Fascist militia WW2
- All:** The 'SC' packs figurines are made in resin and designed by Stefano Carrozzini.
- SC01 APV crewman in leather suit, WW2
 - SC02 APV officer, companion to SC1
 - SC03 APV commander in overalls, WW2
 - SC04 APV gun loader, painting, WW2
 - SC05 APV driver, seated, overalls, WW2
 - SC06 Carabinieri soldier, WW2
 - SC07 Engineer with mine detector, WW2 **D** (Please note higher price!)
 - SC08 Officer in North Africa, WW2
 - SC09 Engineer sergeant, N. Africa, WW2

Important: Hornet and War Models are not suitable for children under 14. Most of the kits contain small parts which could be harmful if chewed, swallowed or inserted into various orifices. Modelers should resist the natural inclination to lick their hands, since prolonged ingestion of the manufacturing materials could impair intelligence after a decade or so. Not that anyone would notice.

HORNNET

1:35 scale figurines, British, Soviet
& miscellaneous subjects

All price band C unless otherwise shown

British figurines:

- BH01 Military Policeman directing traffic
- BH02 Soldier wearing M37 bathdress
- BH03 Infantryman in M44 helmet, No4 rifle (suitable for period 1944 to 1960s)
- BH04 Soldier in running crouch, No4 rifle
- BH05 Paratrooper kneeling, No4 rifle (please note higher price!)
- BH06 Tank crew all parts interchangeable F
- BH07 AFV crewman seated, 'thumbs up'
- BH08 Leaning soldier with gun and mug
- BH09 8th Army man in aviator, No weapon
- BH10 14th Army Far East, winding, SMLE
- BH11 Kneeling para cocking No4 rifle
- BH12 Tired soldier with No4 rifle (ideal companion for BH03 and BH04)
- BH13 Running paratrooper, No4 rifle (suitable for period 1944 to 1960s)
- BH14 Motorcycle/MFP late WW2
- BH15 WPMs, shirt blowing in wind, WW2
- BH16 ATs girl adjusting stocking, WW2
- BH17 Brigadier in beret and bathdress
- BH18 General/Field Marshal Montgomery (suitable for both desert and Europe)

Soviet and Russian subjects:

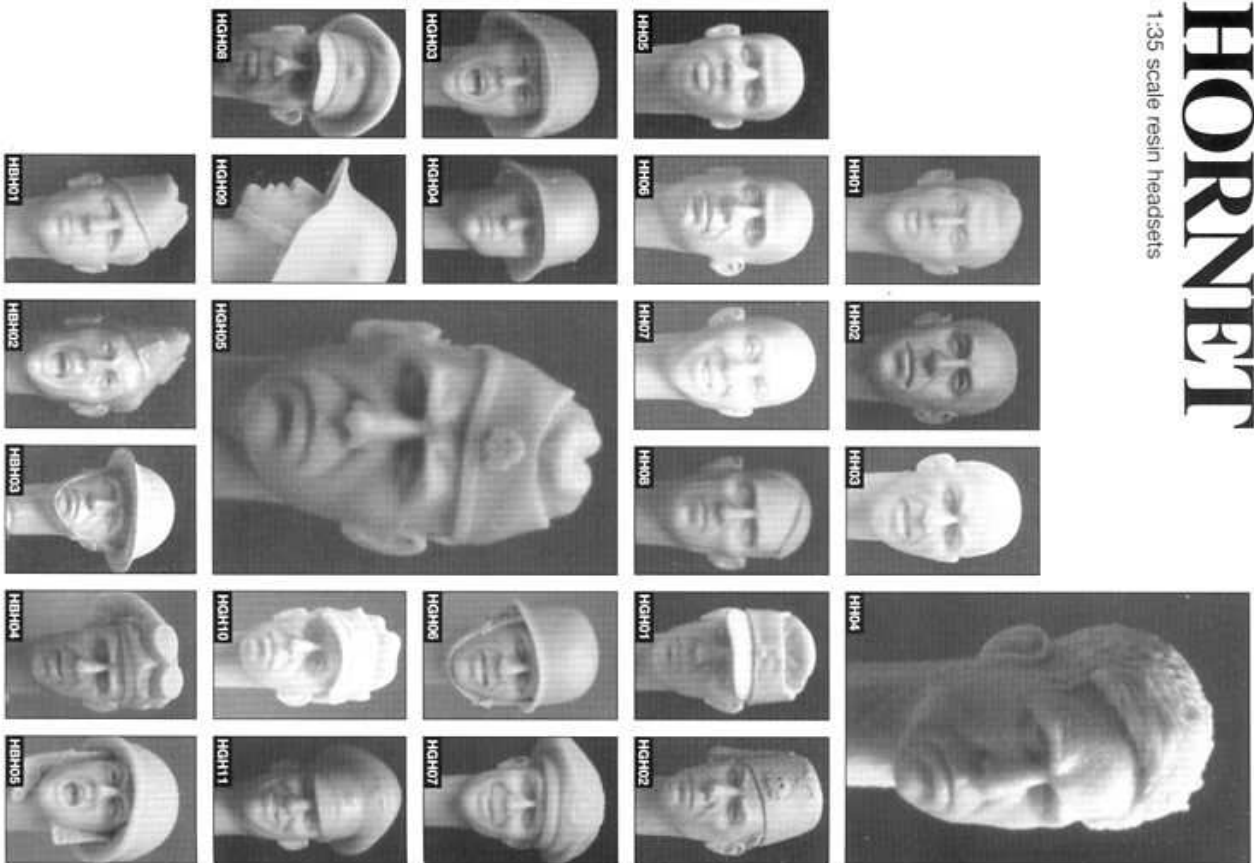

- RH01 Woman traffic controller, late WW2
- RH02 Modern Russian tankman with flags
- RH03 Modern Russian infantry
- RH04 Don Cossack scratching behind, WW2
- RH05 Naval infantry with PPSh, WW2
- RH06 Soldier eating melon slice, WW2
- RH07 Soldier running and shouting, WW2
- RH08 Soldier in camouflage suit, WW2
- RH09 Soldier advancing with PPSh, WW2
- RH10 Infantry tank rider, WW2
- RH11 Infantry tank rider, WW2
- RH12 Infantry tank rider, WW2
- RH13 Tank rider or vaulting soldier, WW2

Hornet figurines, miscellaneous:

- WH01 East German MP winter kit, 1960s
- WH02 East German standing sentry, 1960s
- WH03 East German combat infantry, 1960s
- WH04 Polish tank officer, 1939
- ZH01 Israeli woman soldier with US, 1970s
- UH01 US paratrooper with Gaward, 1944

HORNJET

1:35 scale resin headsets

Hornjet headsets: These invaluable scale heads in 1:35 scale have been used by some of the world's leading modellers since the first early sets appeared in 1987, and modelling magazines routinely feature their use. All are designed by Roger Saunders, ensuring consistency across the whole range. Their use will transform many other maker's products - particularly plastic.

Please note: Reproduction of these heads for use in another manufacturer's range is forbidden. Hornjet copyrights are protected by National and International Law.

Pictures of single heads have been used to represent each complete set. Unless otherwise stated there are 5 heads in each set, all different.

All headsets are price band A.

Bare heads with varying expressions:
 HH01 Character heads, varying features
 HH02 Character heads, varying features
 HH03 Various heads with WW2 hairstyles
 HH04 Various bald heads, African features
 HH05 Various bald heads, European
 HH06 Various bald heads, East Asian
 HH07 Middle aged European faces
 HH08 Middle aged European faces

German subjects
 HG001 Heads with German M43 fieldcaps
 HG002 Heads wearing SS 'Handicap' fur
 HG003 Heads, WW2 helmets with covers
 HG004 Heads, standard WW2 steel helmet
 HG005 Heads, Luthairhof/Army/SS sidecap
 HG006 Heads, WW2 parachute helmets
 HG007 Heads, WW2 postler/Dienst
 HG008 Heads, SS 'officer's' caps
 HG009 Heads with WW2 Sturmklein
 HG010 Heads with WW2 Norman Cap
 HG011 Heads with SS/Army Officer's caps

British subjects
 HB001 Heads, British Army, WW2
 HB002 Heads, British Army, WW2
 HB003 Heads, British Army, WW2
 HB004 Heads, British Army, WW2
 HB005 Heads, British Army, WW2

American subjects
 HU001 Heads with USA M1 steel helmet
 HU002 Heads, M1 in Vietnam cover
 HU003 Heads with 1980s US pattern AFV helmets, also used by Israeli, 4 heads with separate microphone assemblies included
 HU004 Heads with meshed US M1 helmets

Miscellaneous heads
 HW001 Heads, Israeli AFV helmets, 1980s
 HW002 Heads, Israeli infantry, 1980s
 HR001 Heads in Soviet late WW2 helmets
 HR002 Heads with Soviet pliska sidecap
 HR003 Heads, early WW2 Soviet helmets
 HH001 Heads, WW2 Italian AFV helmets
 HH002 Heads, WW2 Italian AFV helmets
 HH003 Heads with Polish helmets 1939
 HH004 Heads, WW2 French helmets
 HH005 Heads, WW2 French Adrian helmets

HORNJET

Miscellaneous 1:35 scale equipment
1:32 scale Wild West series of figurines

TH01

TH02

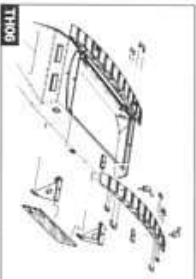

TH03

TH04

TH05

TH06

Miscellaneous items, mostly white metal; some kits include photo-etched parts. Note separate price codes:

- TH01 British Vickers machine gun with tripod
- TH02 British M.C. gun cranes, WW2. B (no optics supplied)
- TH03 USA Custom airborne scissor. F (no optics supplied)
- TH04 German military bicycle, used in great numbers during WW2. F
- TH05 2 sets of German backpack, canteen, bayonet and trousers. (figure not included)
- TH06 Assault bridge sections and brackets for SD Kit 25177. (Vehicle not included). F

Pricing: The models are priced within a range indicated by a letter of the alphabet, which is in turn linked to a Pricelist printed separately from this catalogue. Where a number of models are all priced the same they will not be coded individually, but a group code will be shown with the listings.

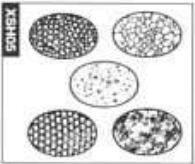

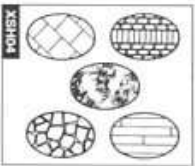

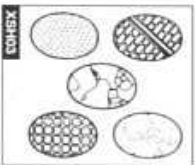

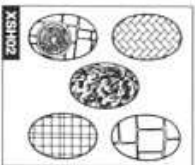

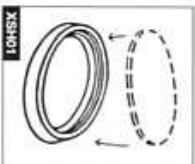

Miscellaneous other metal items, not illustrated, all price band A

- BAH01 3 pairs British Barmecese arms
- BAH02 3 additional pairs of BD arms
- QWH01 10 German Kistler rifles
- QWH02 5 German Panzerfaust 60
- BWH01 10 British SALE rifles
- BWH02 10 British Lee Enfield No. 4 rifles
- IWH01 10 Italian Carcano M38 rifles
- IWH02 10 US Garand rifles

Hornet metal bases: suitable for 1:35 & 1:32 scale models, price band A

- XSH01 5 open topped pedestals to take sculptured oval bases from range below
- XSH02 Street with manhole bricks/holes/ stamped grass/stone slabs
- XSH03 Artificially deck/timber/brick blocks with weed between/slats
- XSH04 Pavement/brick sets/planking/patched grass/crazy paving
- XSH05 Stony scrub/paths/cobblestone/gravel/dirt and cracked soil

Update to the first edition

Well, we sold out of the first edition catalogue. Rather than re-ign the whole catalogue, we've decided to reprint and bind in a colour insert sheet that will keep the information pretty well up to date until well into 1999. After the first catalogue went to press, it was discovered that the picture of BH17 on page 4 was in fact a mirror image repeat of figurine BH01. For technical reasons this is not easily rectified, so please check out the picture and correction that appears on this page to see BH17 in its full glory!

Please note that the DM1 series of models (formerly on page 16) has been dropped from the range by mutual agreement with Darroux Military Models, with whom they originated. Limited quantities are still available from us, and will be supplied while stocks last. Otherwise, not much has changed. We are steadily adding to the Hornet 'spare heads' sets, which continue to have rhapsodic praise piled on them by reviewers and customers (see the text on the reverse side of this sheet -). It is worth mentioning that because human heads vary in size, many of the Hornet heads can be used as accessories with 1:32 (54mm) size figurines. This is particularly true of the bare heads, because hair can be added to bulk out the skull area as needed. There are many more of the resin 'MGI' series in the pipeline, but I've decided to hold back on the Hornet metal figure series for the time being, because I think that the market for 1:35 scale WW2 figurines has been so oversupplied that customers are growing resistant to more releases.

This catalogue is intended as a practical and handy reference, rather than as a glossy showcase for the models. That way, we can keep the price down and update the information at reasonable intervals, and would be grateful if you can let us know what you think. Don't let anyone tell you that these models are hard to get hold of. Lay siege to your hobby supplier until he/she stocks them!

Now that we have a bit of extra space available, the Saunders Megacorporation would like to thank, and acknowledge the work of the following talented sculptors: Stefano Carone, Ferdas Patton, Tony Williams, Adrian Bay, Ernie Miter, Steve Harrison, Alex Williams, and give a heartfelt round of applause for the painters who brought the models to life: Mark Hodson, Roy Dixon, Lee Chandler, Ernie Miter, Gary Stahl, Joe Payne, Bill Horan. (And I did a few as well!)

Roger Saunders, January 1999

BH17 British Brigadier, late WW2, in brief and bulletproof. An ideal companion for BH18 (Army). This picture should have appeared on p4, at the bottom of column 5.

New Hornet 1:35 scale headsets due Spring 1999:

With the advent of a useful series of headsets wearing berets, Hornet has decided to depart from the usual catalogue system. The beret is by now such a widespread item of uniform that to label these new sets by monotonous would be misleading. Here is a short (and interrupt) history of this ubiquitous headgear to help you choose the right set!

Beret-like caps have been worn by armed men for several hundred years, for example the Scots bonnet which subsequently evolved among other things into the Tam o' Shanter (HBHQ2), but it was the French who were probably the first to issue a true beret to regular troops. (The Chasseurs Alpins mountain troops wore a beret of hortic proportions from before WW1. It must have kept the snow off the shoulders, and probably served as a sleeping bag in an emergency...) Between the World Wars both the British and the Germans made the beret a practical and distinctive headgear for their new tank troops, as did the Poles (Hornet figure WW04). The German version was worn over a close fitting round padded helmet, the broad rim of which remained visible (HGHO7), but it was withdrawn from use in the early stages of WW2. The British armoured troops wore their beret without additional padding, and pulled over the right ear with the badge over the left eye (HBHO1, HBHO4). This headgear was adopted and publicised by General Montgomery (figure BH18) and other senior officers (BH17), and was the basic form that is now seen in armed services all over the world in many and various guises.

During the War, Britain's new Commando and Airborne forces were given the distinctions of green and maroon berets respectively. In the years after the conflict, these distinguishing features were mimicked by other countries, until they became almost synonymous with elite troops worldwide. In the course of the War, British soldiers abandoned their sidecaps (HBHO2) and were issued first with the unbecoming G5 cap (HBHO2), and subsequently a flat beret similar to the dark crew type.

After WW2, the beret emerged in all shapes and sizes, being pulled and shrunk according to the inclination of the nation, unit and individual, waiting it but tending to become smaller as it evolved. Most countries shape the beret in the British fashion, others follow the French tradition and pull to the left. There are anomalies, ex. Free French veterans sometimes continued to wear their berets pulled right (HHO4) like their British allies of WW2, and US advisors attached to South Vietnamese units wore theirs pulled to the left (HHO3), the Vietnamese having inherited the French style.

Ok, we gave up. The Hornet beret sets are rationalised into groups and all are undesignated because of the huge variety of insignia around. Examine the sets to discover a shape similar to the one that you are seeking, and model or paint the badge of your choice (but remember that in time of war unit badges may not always be worn for security purposes). As a very broad guide, set HHO1 has the cocked front generally caused by a siltier behind the badge, and it could be used to represent a variety of British units postwar, the present day Royal Marines, and US special troops among many others. HHO2 has the smoother outline produced by a siltier to fit exercise and a small badge pinned or sewn to the fabric, and is more typical of some modern British units such as the Guards and Paras. HHO3 shows typical modern left pull types, and the grey green beret affected by the French Foreign Legion. Two alternative Legion badges are moulded onto each of the berets because we were feeling kind that day... HHO4 represents some styles of the 1940s and 50s when construction was common and the beret considered just another piece of horrible sodden! This is also the set to choose to represent British WW2 troops.

Important: Hornet and Wolf Models are not suitable for children under 14. Most of the kits contain small parts which could be harmful if chewed, swallowed or inserted into various orifices. Modelers should resist the natural inclination to lick their handwork, since prolonged ingestion of the manufacturing materials could impair intelligence after a decade or so. Not that anyone would notice.

Seriously, folks. No dust is good for the lungs, so avoid breathing it in when working on models, and be extra careful when using stamp balers.

As a general rule, if you can build plastic kits, you should have no difficulty with these. You just use different glue!

Pricing: The models are priced within a
 range indicated by a letter of the alphabet,
 which is in turn linked to a Pricelist printed
 separately from this catalogue. Where a
 number of models are all priced the same
 they will not be coded individually, but a
 group code will be shown with the listings.

Copyright: All items in these listings
 are protected by British and International
 Copyright Law. Reproduction of any part
 of these models for inclusion in another
 manufacturer's range is strictly forbidden,
 whether done for profit or not, and whether
 modelled or not.
