

# CALDER CRAFT®

## CATALOGUE

A very fine range of handcrafted White Metal Models  
manufactured in the traditional skill of Yorkshire Craftsmen.

A Division of Hinchliffe Models Ltd • Meltham • Huddersfield • Yorkshire • England

## INTRODUCTION

It is with great pleasure that we announce our new company called Calder Craft. Calder Craft is a division of Hinchliffe Models Ltd, but will be run totally independent of the parent Company.

The present object of the company is to introduce the world of military modelling to a far wider audience. We have long been aware that the complex nature of wargaming has discouraged both retailers and consumers from becoming involved in the hobby. Many retailers have found the vast range of products too difficult to stock and many consumers have found the wargame rules too complicated to understand. We are also aware that the packaging produced by military modelling companies is poor in comparison to that produced by all other model manufacturers.

Calder Craft therefore has been formed to introduce a compact range of figures and equipment to overcome these problems.

The range :

- 1) 1/72 scale figure groups and equipment (skin packed for ease of display), designed to complement the plastic kit manufacturers' ranges.
- 2) 25mm figures in military and non military subjects (blister carded for effective display) together with booklets explaining historical details, specific painting instructions, hints and tips, and how to play enthralling but uncomplicated games with the packs. The more packs collected the more involved and exciting the games become.
- 3) A range of magnificent 30mm diorama sets in full colour boxes.
- 4) 1/32 scale Guns, Artillery Crews & Guns and magnificent Horse Teams all beautifully boxed in full colour boxes.
- 5) A Samurai warrior already proclaimed as the finest example of its kind ever produced.
- 6) A Robin Hood board game for all the family to play.

The whole range is well packaged and the quality is amongst the highest craftsmanship available in the world today.

The parent company Hinchliffe Models Ltd will continue to operate in the strictly specialist Market with all the enthusiasm and skill upon which it has made its reputation.

Calder Craft will operate with the same enthusiasm and skill in this far larger market and we hope you will join us in making Calder Craft a household name in the model and toy market.

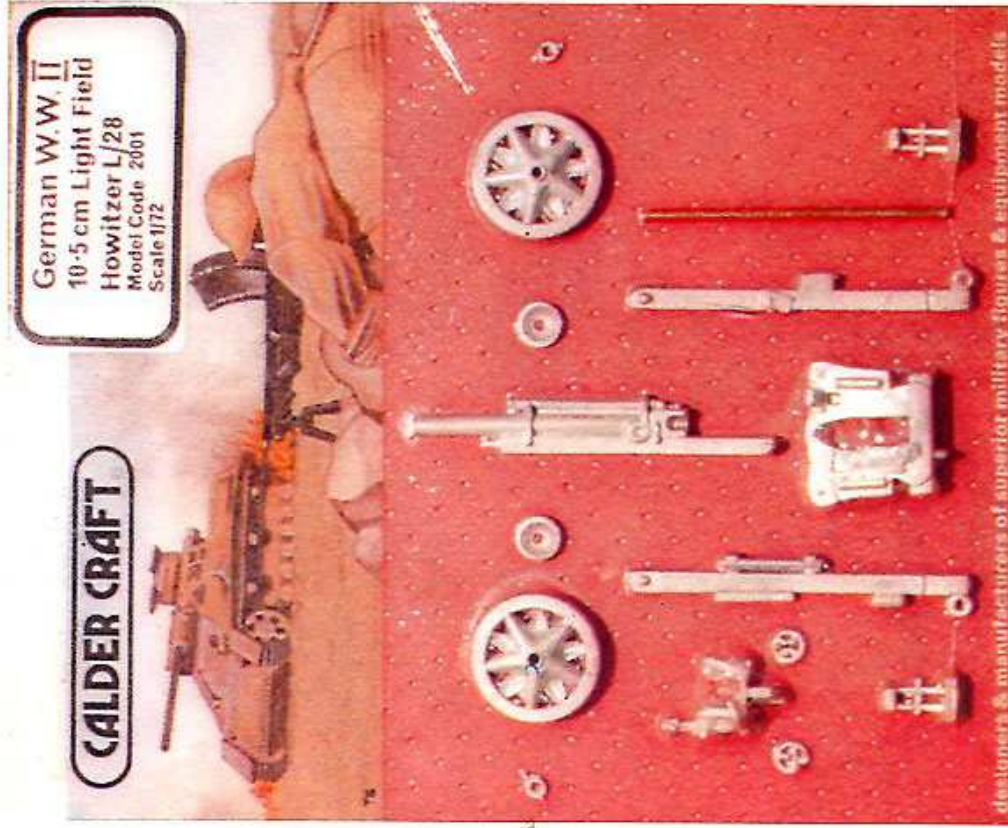

## CONTENTS

# RANGE · WORLD WAR II FIGURES and EQUIPMENT

# Scale 1/72

The range is designed to be used with all Models of 1/72 Scale both plastic and metal and includes in it many articles not manufactured by plastic model makers. Because the models are made of metal they have a far greater heft and definition than is possible with plastic, giving each model the quality and authentic accuracy upon which we base our reputation. This range is wholly concerned with the Second World War period. It includes equipment from the British, German and Russian armies and figures from the British and German armies. All packs contain a simple instruction sheet where necessary.

**PACKAGING:—** All figures and equipment packs are skin packed as per the example opposite for ease of display at Point of Sale.

**U.K. INNER PACK**  
3 CARDS OF EACH TYPE

**EXPORT OUTER PACK**

# CALDER CRAFT® 25mm Adventure Packs and Booklets

## INTRODUCTION

We have spent a long time in formulating an idea to introduce the fascinating world of figure modelling to more people in an interesting and exciting way. This range of adventure packs and booklets is the culmination of all our efforts.

ADVENTURE GAMING covers 4 different subjects viz.:

RANGE OF 48

RANGE OF 12

RANGE OF 10

RANGE OF 20

## OBJECT

The idea is for the adventure gamer to choose a subject and start collecting the packs in the range. All the packs are the same price regardless of contents and contain foot figures, mounted figures or pieces of equipment.

## BOOKLETS

In addition to the adventure packs we have produced informative booklets on the Napoleonic Medieval and Robin Hood ranges. The booklets give historical background uniform and painting instructions and a general explanation of setting up terrain features plus rules to play a game with the figures in the packs. The booklets set the scene and add interest and enjoyment to collecting the packs.

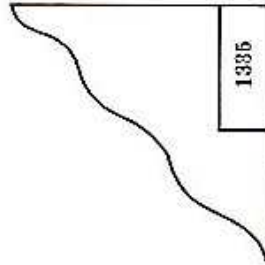

## COLOUR CODING

We have simplified adventure gaming for the retailer by colour coding. — The Napoleonic Series is in Red Blister packs — Medieval dark green — Robin Hood light green and Fantasy purple.

## RE-ORDERING

We have designed a tab system for re-ordering. At the bottom right hand corner of the blister pack is a tear off tab which should be removed at the time of sale, placed in an envelope and each week posted to us. The tab tells us the blister pack number and each week we replace the used stock.

## MERCHANDISER

We have designed a counter/wall merchandiser to take the blister packs and the booklets — see over . . .

## TRADE DEALS

We have formulated 4 simple trade deals covering all the subjects in the range, see over . . . Calder Craft Adventure Packs are new, educational, and above all — fun.

## Taisho Samurai Warrior

This magnificent kit is of a Japanese warrior commander circa AD 1159-1190. This model is a masterpiece and has already been acclaimed as the finest example of a Japanese Samurai warrior ever to be produced. The kit contains full historical details, assembly and painting instructions.

Model Code RLO/1.

UK inner pack 1 only. Export outer pack 6 only.

**CALDER CRAFT**

## Robin Hood Board Game

A fascinating game for all ages set in the intrigues of Sherwood Forest where Robin Hood & his loyal followers battled with the Norman masters of the day. The comprehensive rules are easy to follow & allow different games to be played on the same board. All the game piece figures are hand painted in the colourful robes of the period. Further game pieces can be purchased from our 25m/m. Adventure Pack Range and then painted. This adds interest skill & fun to an enthralling game.
